IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING

DANGER – To reduce the risk of electrocution:

1. Always unplug this appliance immediately after using.
2. Do not use while bathing.
3. Do not place or store appliance where it can fall or be pulled into a tub or sink.
4. Do not place in or drop into water or other liquid.
5. Do not reach for an appliance that has fallen into water. Unplug immediately.

WARNING – To reduce the risk of burns, electrocution, fire, or injury to persons:

1. An appliance should never be left unattended when plugged in.
2. Close supervision is necessary when this appliance is used by, on, or near children or individuals with certain disabilities.
3. Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
4. Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped, damaged, or dropped into water. Return the appliance to a service center for examination and repair.
5. Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
6. Never use while sleeping.
7. Never drop or insert any object into any opening or hose.

IMPORTANT SAFETY INSTRUCTIONS

8. Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
9. Connect this appliance to a properly grounded outlet only. See Grounding Instructions.
10. Do not use an extension cord with this appliance.
11. NEVER use the device in water or other liquids. NEVER use the device near a bathtub, shower, containers full of water, or any other damp place. Never use it with bare feet or when hands and feet are wet.
12. Do not place the hot hair straightener on plastic or any material sensitive to heat.
13. Do not touch the hair straightener when it is hot. Always be very careful not to burn yourself when styling.
14. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
15. If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similar qualified person in order to avoid a hazard.
16. Children should be supervised to ensure that they do not play with the appliance.
17. Do not use the appliance for any other purpose than its intended use.

IMPORTANT SAFETY INSTRUCTIONS

WARNING: Do not use this appliance near bathtubs, showers, basins or other vessels containing water.

User-Maintenance Instructions

1. Before carrying out any cleaning or maintenance, please make sure the appliance is unplugged and has cooled down.
2. If the appliance isn't working properly, please firstly check the plug and then check that the main electric supply is switched on. Do not tamper with it. For any repairs, please contact the technical service centre authorized by the manufacturer or its agent.
3. Never wrap the power cord around the hair straightener when it is unplugged.
4. If the cord of a hand-supported appliance is twisted, to untwist the cord before use.
5. The appliance has no user serviceable parts.

Cleaning

1. Before cleaning, please make sure the appliance is unplugged and has cooled down.
2. Don't immerse the appliance into liquid for cleaning.
3. After cooling down, use cloth to clean the working surface or other part.

HOW TO USE

Step 1

Turn on the Malina Elite by switching the button to "ON" position.

Step 2

Choose the desired temperature by turning around the temperature round button.

A red light will appear when the iron is turned ON. Once the desired temperature will be reached, the light will change to Blue.

To straight

Use on a dry hair.

Separate your hair into thin groups of hair and slide the iron slowly on each group of hair.

For Ultra straight results, slowly slide five time on each group of hair .

To Curl

Use on dry hair.

Separate your hair into thin groups.

Begin at the base of the head at the root and create small sections.

With the Malina Elite held horizontally, take a half-inch to two-inch sections of your hair and create a soft S-shape bend by clamping and pulling the flat iron it alternating directions through the strand . before reaching your tips to leave out the hair's natural texture.

This process must be done slowly on high temperature for best results, we also recommend to NOT rinse or moisturize your hair prior to the curling process.

Do not straighten your hair before curling it.

Do not forget to switch the Iron to "OFF" position once you finish to use it.

WARRANTY CERTIFICATED

One-year limited manufacturer warranty for repair or replacement after date of purchase.

The warranty does not cover damage due to abuse or misuse (such as dropping the tool) or tampering (such as attempted repair).

Warranty can be activated only for MALINA hair tools purchased from an authorized retailer.

Must have a valid proof of purchase.

Item serial number must be provided to activate warranty.
